

Installation, Start Menu and Updates

You can download QuoVadis Mobile for Windows 10 from your [App-Store](#).

Start Page

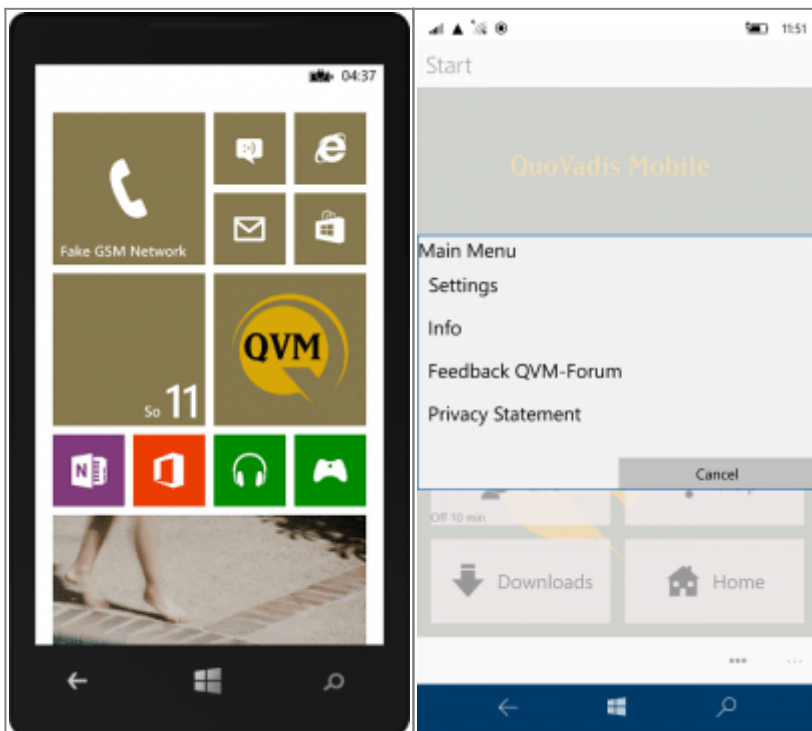

After starting QuoVadis Mobile via QVM-W3-Icon on the home screen, the start page appears from which all functions are available:

[Map](#), [GPS](#), [Find](#), [Database](#), [Live](#) and [Help](#) (this Wiki)

The **Windows 10 Smartphone app** is terminated by pressing the Back button on the phone.

Info and Update

With  in the right corner you see at **Info** the used version number of the App and you can access the global [Settings](#).
